

**Very capable**

I want to share with our neighbors how fortunate we are to have the quality of service we receive from our community first responders from Graeagle Fire. Our family has had the need to call upon Ed Ward and his very capable crew twice in the last several months, due to an emergency situation at our home.

These fine men and women are extremely professional in performing their work with the utmost pride and seriousness. Within minutes, they are on the scene ready to take charge. Without their diligence, I'm certain we would have had a life-threatening case.

Too often, we take this excellent service for granted. In a small community like ours, how lucky we are to have these folks around. We all owe a big debt of gratitude to these well-trained volunteers.
