Subject: Cromberg Fire of Jan. 10<sup>th</sup> 2004

My wife and I would sincerely like to thank all individuals who participated during this tragic event. We both thank God, that everyone's quick response not only saved lives, but contained this fire to the structure only, and that there were no injuries related to this incident.

We are proud to know that our community has such a dedicated group of individuals to protect us under all tragic conditions. Your tremendous response is one to be proud of.

Thank you all,

Helen & Richard D. Fripp II
